Rich migrants can usually travel freely. It's the poor that have problems

THE CASE AGAINST IMMIGRATION CONTROLS

SWP MEETING All welcome!

Day & time:

Venue:

Our rulers want us to believe that immigrants are a problem.They want us to believe that they will be a drain on our society – that they will take our jobs and our homes and even our benefits!

This vicious scapegoating has tragic consequences for millions of people who are trying to flee persecution, or seek a better life.

As socialists we argue that 'workers have no country' and that we should be free to travel around the world wherever we want.

Is this utopian nonsense? What would happen if we scrapped all immigration controls tomorrow?

Come and join the debate.
