# LET THE CHILD REFUGEES IN!

**OVER 1,000 unaccompanied children are stranded in the 'Jungle' refugee camp in Calais. The French government have threatened to demolish the camp starting this weekend and forcibly remove refugees to other detention centres. The last time this happened an estimated 120 children disappeared.**

Labour peer Alf Dubs moved an

amendment to the Immigration Act in May to allow the UK to take in up to 3,000 child refugees. Since it passed the Tories have dragged their feet and hardly any child refugees have been allowed in.

Young children continue to die as they try to make the dangerous journey hiding on trucks and lorries crossing the channel.

These children have a right to be here.

Many have family members already in the UK. It is the Tories' racism towards migrants and refugees that is putting these children in danger.

It is vital to stand up to this racist scapegoating.

- Let the child refugees in
- We need a mass movement to challenge racism
- Refugees are welcome
