The Tories are using racism to divide us...

Open the borders!

Refugees & migrants welcome

THERESA MAY and the Tories are using racism to divide us. The Tory Party conference heard calls for 'British jobs for Britsh workers', for employers to report the number of 'foreigners' who work for them, a 'crackdown' on overseas students, immigration checks for taxi drivers and deportation of NHS doctors.

It is the Tories who have driven down public sector pay, attacked trade union rights, cut spending on housing and public services and then used racism to try to divert the blame onto migrants and refugees.

The Tories have sought to make refugees' journeys more dangerous - blocking routes of travel with gunboats and now building a wall in Calais to keep out people fleeing war and persecution.

It is vital to stand up to this racist scapegoating that can only undermine the united fightback we need to take on and defeat the Tories. Jeremy Corbyn is absolutely right to condemn the Tories for fanning the flames of xenophobia and blaming foreigners for the Tories' own failures.

We need a mass movement against all forms of racism.

Refugees are welcome!

Open the borders!

No to racism and Islamophobia!
